

# EFE Rail

## LSWR Gate Stock Coach Set

### Owner's Information

#### Great British Model Railways

Thank you for purchasing this EFE Rail LSWR Gate Stock Push-Pull Coach Set. A lot of care was taken producing your model and we hope you enjoy it for many years to come.

#### Accessories

The image adjacent should assist with fitting the brake pipes and dummy couplings if required. We advise the removal of the standard tension lock coupling as the accessories may interfere with the operation of the coupling.

The accessory pack also contains two fixed-bar couplings for use at the inner end of the coaches. The longer of the two is designed for use on second radius curves and the shorter is designed for use on third radius curves and above.
